

## **VISTA Volunteer Reporter Project Continues**

Due to the interest in capturing VISTA's stories and impact through video, VISTA is extending the Volunteer Reporter project into 2011. We are currently looking for new reporters.

**If you are interested in becoming a VISTA Reporter—or have been creating videos about your project—please email the following to [VISTAOutreach@cns.gov](mailto:VISTAOutreach@cns.gov) with the subject line "VISTA Reporter Application:"**

1. Brief statement of intent (300 words max) including where you are serving, service start date, why you want to participate in this project, and what you would want to capture on video.
2. Brief overview of your experience filming and editing video. If you have limited experience, but a strong desire, please explain how you will approach learning how to edit your videos.
3. Link to (1) multimedia or journalism project you have created online as a sample of your work. This can be a video, website, photo or written piece.
