Describing My Impact

Considering: Who, Where, What, How, Results...

Scott Fredrickson, the Community Outreach VISTA with Camp Fire in Austin, Texas (who/where), helped plan and implement the Walk for Nature, an event in support of water conservation and raising public awareness about drought and ways to aid the preservation of wildlife in Texas. Scott worked with community partners and the planning committee to plan the event and created and executed a comprehensive media strategy (what). Through his efforts, Camp Fire recruited new volunteers, cultivated new partnerships with local businesses, and built capacity (what) through more focused media relations and direct communication with community partners via social media (how). This event acts as a fundraiser for Camp Fire, and in comparison to the previous year, fundraising for the event grew 500% (results).

HIV disproportionately affects individuals living in poverty, who often do not have access to HIV prevention education, testing, and care. Serving with Northland Cares HIV Specialty Clinic, AmeriCorps VISTA member Anna Alcott’s goal is to increase access to HIV education in the small city of Prescott, AZ. For the past month, Anna has been working to produce a core curriculum for HIV education in Prescott and the surrounding areas. A standardized HIV education curriculum allows Northland Cares to partner with local organizations to better serve communities in need by ensuring that accurate and consistent information is distributed. The curriculum will be utilized at approximately 15 organizations, including: outreach presentations at recovery homes, sober living houses, and homeless shelters. Anna’s goal is to reach 2,000 at-risk individuals by August 2014.
