

## Did you serve as a VISTA? Do you want to help launch a new VISTA project to increase engagement in STEM education?

Join a community of passionate people making a difference for Flagstaff's youth! You can gain valuable experience and network while serving a year increasing access to and interest in science, technology, engineering, and math (STEM) education for underrepresented youth. We need a VISTA Leader who can help us launch this new project. We are looking for a dynamic driven individual with recent VISTA experience. The VISTA Leader will work directly with Flagstaff STEM City and the Civic Service Institute at NAU.

The Leader will help coordinate 14 AmeriCorps VISTAs to serve with the Flagstaff STEM Education VISTA Project. The VISTAs will serve at Flagstaff non-profits, schools, and other organizations. They will work on projects including developing curriculum, marketing and outreach, fund development, volunteer coordination, and program evaluation.

We are looking for a VISTA leader who can start as soon as possible, before June 2016. Benefits include a gross living stipend of \$14,712, divided into biweekly payments and an Educational Award of \$5,775 upon successful completion of the term. There will also be a small meal plan supplement provided by NAU.

Why Flagstaff? Flagstaff is America's First STEM City! Flagstaff is also an awesome place to live and serve. Sunset Magazine ranked Flagstaff one of the best places to work and live. Travel and Leisure ranked it one of the best College Towns in the US. Outside Magazine recognized Flagstaff as one of the best towns for outdoors enthusiasts.
